

PROJECT HIGHLIGHT

WAM Capital, of Wichita, Kansas, completed a facility that is built to last. With concrete walls, paving and 102,000 sq. ft. of flooring, the first class warehouse, distribution, and/or industrial space will provide future tenants maximum interior flexibility and durability. Helix[®] reinforcement was chosen for the 8" slab on grade to provide increased load and rack capacity, along with a higher resistance to spalling at joints. At just 9lb/yd³ of Helix[®] reinforcement, the 8" slab carries 2x more capacity compared to a 6" slab reinforced with mesh.

In addition to Helix[®] reinforcement in the slab, the warehouse boasts 30 ft. high interior ceiling clearance and increased column spacing. The clear-span interior with 100-foot by 31-foot bays stretch from the wall to the support columns. The exterior walls are made of 8" and 10" thick tilt up concrete walls. WAM Capital also made energy efficiency a priority with 100% LED lighting throughout, plentiful windows for natural lighting and occupancy sensors.

PROJECT HIGHLIGHT

Helix[®] reinforcement has been implemented by WAM Capital in Wichita, Kansas. Read full story below.

SUCCESS IN ICF

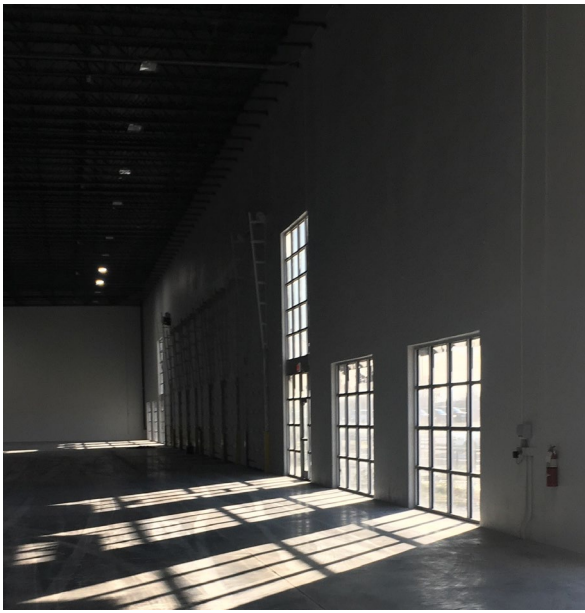

See page two to read about Helix[®] reinforcement in Insulated Concrete Forms.

WELCOME ABOARD!

This quarter we welcomed a new member to our team! See page two for details.

EVENTS

We have some events coming up in 2020! See page two for details.

SUCCESS IN ICF

Since 2004, Helix Steel has provided contractors who use Insulating Concrete Forms (ICFs), a way to build using environmentally friendly and sustainable materials. Those using ICFs pride themselves in constructing long-lasting, energy efficient buildings. Helix® reinforcement can relieve pain in the building process and provide sound and secure structural reinforcement in lieu of traditional rebar. Read more [here!](#)

WELCOME ABOARD!

Helix Steel is proud to welcome John Filush as Plant Operations Manager. John has a degree in both Production Management and Business Administration from Central Michigan University. John brings a strong, healthy work ethic to our team and will play a crucial role in our company's success.

WE OFFER FREE PRIVATE LUNCH & LEARNS OR WEBINARS BY REQUEST. PLEASE CONTACT US @ (734) 322 - 2114 OR INFO@HELIXSTEEL.COM WITH QUESTIONS!

UPCOMING EVENTS

WORLD OF CONCRETE 2020

FEBRUARY 4-7, 2020, LAS VEGAS, NV

LAS VEGAS CONVENTION CENTER

At World of Concrete, find all the products, resources and valuable information necessary to strengthen your business. This is the commercial construction industry's first, largest and most important annual international event for concrete and masonry professionals across the globe!
