

## Join Our Live Webinar Next Friday 12 pm: Increase Precast Production with Helix Micro Rebar

This webinar will be led by Helix Steel's President and CTO Luke Pinkerton to walk you through the fine details of the benefits of Helix Micro Rebar for precasters. We will show you how Helix Micro Rebar has been implemented to minimize post-construction risk and increase precaster capacity while providing owners with engineering support along the way.

This webinar will take place Friday, November 5 at 12 p.m. Eastern Time.

## EMPLOYEE HIGHLIGHT

### Emma Galindo, Maintenance Supervisor

Emma Galindo has been with Helix Steel for 9 years. She started out as a machine operator and has worked her way to her current position, Maintenance Supervisor.

When she is not at work, Emma enjoys spending time with her 3 kids as she is very family oriented. Emma also likes going to the movies and crafting.

## REVOLUTIONIZING CONCRETE REINFORCEMENT

Helix® Micro Rebar® reinforcement produces a stronger and more durable finished concrete product without the complications of tying rebar or using mesh while producing the same finish. Our one-inch reinforcement is also a more effective solution without the concerns of rising rebar costs, labor shortages or placement errors made on the jobsite.

## SUBMIT A PROJECT

Have a project in mind? Fill out our Submit a Project form and we'll look into how Helix can help.
